Speech Correction Clinic

The Kansas City Alumnae of Kappa Alpha Theta announce the opening of a speech correction clinic for residents of Missouri. The clinic will be administered by the Institute of Logepedics, at the Kansas City Field Center, 5900 Lamar, Mission, Kansas.

Previously these services were open only to residents of Kansas. Services will be available to all ages, on a cost basis.

For more information, call Mr. Wayne D. Trail, RA 2-3773.

Editorially Speaking

I am amazed that so many people are amazed that as of May 19 no progress had been made at Geneva by either the foreign ministers or the Atomic Bomb Inspection Conference. The latter has been going on so long that most of us have forgotten when it started and some of the readers of this material will have passed on before they both adjourn in complete frustration on the part of the Western Allies. They may throw us a few fish in suggestions of concessions but at the Summit, same frustrations.

When a news commentator or headline writer says "Bad news tonight from Geneva" what does he mean? Of course it is bad news. Anything that is said by the Russians or Chinese these days is bad news for us. In his rather funeral voice one would think that this commentator had really expected Gromyko to have accepted Herter's proposal or perhaps to indicate that he, Gromyko, might.

Actually, it seems to me that this country would be far better off if we had more politicians, editorialists and commentators who would speak the truth as do Khrushchev and those members of the Politburo who are permitted to speak, and Pravda and Tass.

Day by day, hour by hour, these people tell the whole world exactly what they, the Russians, are going to do, their objectives for worldwide conflict, and what they will not do because to do this would interfere with or maybe even block their ultimate control of this globe and all the other planets they can reach.

To give up East Germany is unthinkable to them because it serves two vital needs: It can produce almost as much as Russia, and as long as it exists it divides the most vital people, the Germans, on the European peninsula of the great heartland of the world.

So why do so many people give voice to the idea that if we just sit down with the Russians everything will be all right? The Russians agreed to free elections in Combined Germany in, I think, '55. And so we have had "free" elections to determine the fate of the Germanic peoples. Where? In the Russian Politburo. Remember?

Today the Russians play this game with a deck of marked cards and with 75% of the chips in a no limit game. So if they don't deal themselves a winning hand they can out bluff us and so win every game. Well, every one where there is no armed force involved. After all, when we dig down in our jeans and our "poke" we have a lot of chips we haven't put in the game yet. Sorta holding in reserve but, because we haven't put them on the table or even indicated that we will surely use them, because some of our partners won't take a stand, we are at a constant disadvantage.

Why in the world can't the British and many leaders of the Democratic Party like Stevenson, Harriman, Eleanor Roosevelt and others understand that there are some men who have no good will but are all ambition. This is the characteristic of the Great Russians which made possible a little town on the River Moska to become the most powerful city-state in the history of the world.

Then we have many confused socialists and leftists who think that the Communists are a social movement. It is true that the Russians have done wonders in heavy industry, war potential and "sputniks" but one still cannot buy a decent pair of dress shoes or a personal motor car in Russia on a factory worker's salary. Is that the real objective of a social movement or is that preparation for world conquest?

The Russians will never give an inch, and anyone who even suggests that they might is soft in the head.

(Continued on Page 1016)

(Continued from Page 1015)

The Russians know that the Democracies have never started a war in this the 20th Century and sincerely believe that we won't. So why should they give a micromillimeter? If I held all the Aces, Kings and Queens would I throw in my hand?

I don't know when this will be published, but whether in June '59 or January '70, the story will be the same: Bad news from Geneva or Moscow. Why can't we realize what is coming and be prepared?

G. Wilse Robinson, Jr.

Miss Linda Hough, daughter of Mr. and Mrs. Charles Louis Hough of Vinita, Okla., and **Richard Lee Russell** were married May 17 at St. John's Episcopal Church in Vinita.

Dr. and Mrs. Ralph Perry were guests of the Illinois State Medical Association at the annual meeting held in Chicago on May 20.

Medical Minutes

Each Medical Minute Contribution is written for all doctors rather than for any group specialty

PROCTOLOGY—
CLIFFORD C. WILSON

Massive hemorrhage from colon in elderly people in absence of demonstrable disease elsewhere in bowel is almost invariably due to diverticular disease. Carney. S.M.J., May '59.

OTO-RHINO-LARYNGOLOGY—
PAT A. BARELLI

Prolonged administration of streptomycin can cause damage to auditory apparatus to case hearing loss. Arch. Otolaryng., Dec. '56.

OBSTETRICS AND GYNECOLOGY—
MARION W. RICHARDSON

Estrogen saturation of tubal muscle is important factor in regulating its activity irrespective of presence or absence of progesterone. Upadhyay. J. Obst. & Gyn., India, 9:17 '58.

NEUROSURGERY—
EDWARD C. WEIFORD

Rate or degree of recovery of patients with recent occlusive cerebral vascular lesions no more favorable with anti-coagulant therapy than similar group not treated with anti-coagulants. Vastola, et al. Neurology, Mar. '59.

UROLOGY—
IRA T. SMITH

On basis of 2000 bladder cultures, it was found that 94.5% with severe pyuria were associated with urines containing gram-negative bacilli. Those with gram-positive cocci only, generally caused only minor bladder symptoms and little pyuria. Arnold. J. Urol., Apr. '59.

INDUSTRIAL HEALTH—
HAROLD Y. ALLEN

Many new chemicals recently introduced act as both primary irritants and as sensitizers (synthetic rubber, insecticides and plastics). Peck. Med. Clinic of N. Am., May '59.

GENERAL PRACTICE—
GERALD O'CONNELL

Variation in intensity of first heart sound is useful in recognizing A-V dissociation at bedside. Reynolds, et al. G.P., Nov. '58.

OPHTHALMOLOGY—
CALVIN J. CURTS

Most common single etiologic factor in unilateral exophthalmos from intracranial lesions is meningioma of sphenoidal ridge. Campion. A.J.O., May '59.

GASTROENTEROLOGY—
PAUL MOSS

Essential that patients having esophageal hiatal hernia have esophagoscopy to determine presence of lesions such as esophagitis, peptic ulcerations, stricture, carcinoma, intramural tumors, cysts and diverticulae. Benedict. New Eng. J. Med., Mar. 5, '59.

DERMATOLOGY—
FRANK X. DWYER

Cyoloserine, wide spectrum antibiotic of streptomyces species, gave uniform quick improvement in skin tucerculids. (Papulonecrotic tuberculids and erythema in duration) Esteves. J. Hautorz, Nov. '57.

ORAL SURGERY AND DENTISTRY—
DONALD W. MARTIN, D.D.S.

Roentgenography is invaluable aid in treatment of zygomatic fracture-dislocation in conjunction with bimanual palpation of entire orbital ring. Crowe. J. Oral Surg., Anes. & Hosp. D. Serv., Jan. '59.

RADIOLOGY—
HAROLD F. DAUM

Large volume myelography in upright positions reveals lesions of spinal canal not found by routine methods. Kvernlong, et al. Radiology, Apr. '59.

CARDIOLOGY—
LAWRENCE F. STEFFEN

Abnormal electrocardiographic abnormalities including S-T segment deviation, T wave depressions and arrythmias, found in good percentage of patients with Asian Influenza. Gibson, et al. Am. Ht. Jn., May '59.

ANESTHESIOLOGY—
JOHN E. KYGER

Tensilon useful in reversing the apnea of succinylcholine. Engel. Anesth. and Analg., May '58.

ALLERGY—
HERBERT J. RINKEL

Foods play major role in etiology of atopic dermatitis particularly in infancy. Breast feeding preferable for all infants particularly for children of atopic mothers. Morris. Ann. Allergy, 16:599 '58.

GENERAL SURGERY—
JOHN A. GRIFFITH

Post-gastrectomy, undernutrition, and dumping. A diet high in protein, slowly hydrolized fat and low in CHo given in multiple small feedings is treatment. Mechanism of etiology is directed. Randall. Surg. Clinic N. Am., Apr. '58.

What Does Blue Shield Really Mean to Us?

Why should we doctors take a special interest in our local Blue Shield Plans?

For one thing, most Blue Shield Plans were created by our county and state medical societies, and most people identify Blue Shield as our profession's special contribution to medical care prepayment. If Blue Shield fails to satisfy its subscribers, many of them will quite properly put the blame on us.

We have another vital interest in Blue Shield: It embodies our own idea of the best way to provide prepaid care on terms that enable us to practice medicine the way we believe it should be practiced. Whether we work as solo practitioners, or in groups, Blue Shield serves our patients without disturbing their relationships with us, and without affecting our professional services to them.

We are also legitimately concerned with Blue Shield because its payments account for an ever larger part of our professional incomes. We want to make sure, over the long pull, that Blue Shield can and will compensate us fairly and reasonably for the services for which these Plans assume the responsibility of compensating us.

Many other agencies are sponsoring medical care prepayment plans. Each of these programs, whether sponsored by industry, labor, consumer groups or private insurance companies, has its merits. But none of them is committed — as Blue Shield is—to guidance by our profession. If any or all these other agencies were to gain predominance in the medical care prepayment field, then our profession would no longer control the basic economy of medicine and the pattern of medical practice.

Blue Shield is the largest single factor in medical care prepayment today. It is making payments to physicians for services rendered Blue Shield patients at the rate of more than half a billion dollars a year, and

(Continued on Page 1021)

Always refer your patients suspected of eye trouble to an . . . EYE PHYSICIAN . . . not just anybody who fits glasses. You will be doing them a favor and they will receive proper care of their eyes.

We shall always use our best efforts to merit the confidence of the Doctor and his patients.

New Program of the National Foundation

The National Foundation, formerly the National Foundation for Infantile Paralysis, has embarked on a new program. This will involve the study of juvenile arthritis and three birth defects, hydrocephalus, encephalocele and spina bifida. With the advent of vaccine the incidence of paralytic polio has markedly decreased and "most of the new cases ought to be classified as completely unnecessary."

The Foundation's program of patient aid is best known to the public, 53 per cent of its funds were used for this purpose. Research grants took 31.2 per cent and every doctor's patient was benefitted by research. Only the Federal Government exceeded in dollars the contribution by the public to the Foundation, which although at a tremendous cost, afforded lay persons to work with medical men in a common purpose. Patient aid was a necessary component of the program, for without the patient the life-saving skills so well known to us now could not have come into being.

The research program of the Foundation began 20 years ago and there followed the cultivation of virus on non-nervous tissue and the opening up of the vast field of virus isolation in other diseases.

The National Foundation's new policy will curtail much of the patient aid formerly given to polio patients. Financial help will be given only to a confirmed case of paralytic polio and not for a period exceeding 30 days unless the doctor certifies that further treatment will make the patient less dependent. Local chapters are prohibited from paying (1) medical and surgical fees, (2) special duty nurses, (3) payment to hospitals in which the patient is entitled to free care, (4) grants to agencies or institutions for personnel or services, (5) care of persons 19 or over and (6) replacement or repair of braces.

H. L. Dwyer

In the Mail

Dr. Arthur Altringer
Chairman, Visiting Committee

Dear Art:

I want to thank you for the interesting and amusing book which you sent me during my recent illness. Both the book and the thought are sincerely appreciated.

The idea of sending a book I think is a refreshing change from the welcome, though somewhat unimaginative, gift of flowers. It is nice to be thought of and I am most appreciative.

Sincerely yours,
Frederick J. McCoy

Dear Dr. Altringer:

Thank you and the Jackson County Medical Society for the lovely crysanthemum.

Doctor smiled a big smile when I read the card with your name on it.

Sincerely,
Mrs. D. L. Shumate

Dear Arthur:

Please convey my thanks to the membership for the fine book you sent during my recent sojourn in the hospital. Tenderloin paints quite a picture of New York at the turn of the century. Easy and enjoyable reading.

Thanks to all.

Sincerely,
Dick Kiene

Dear Arthur:

Please know my gratitude to the Jackson County Medical Society for sending for my enjoyment during my recent convalescence from surgery the delightful recording of the music from the MUSIC MAN. On numerous occasions during the past several weeks, not only have I enjoyed the delightful tunes and the homely philosophy of the MUSIC MAN, but my family and several friends have also participated in the enjoyment of this delightful gift. Thank you.

Sincerely,
John F. Bowser

Blue Shield

(Continued from Page 1019)

nearly one quarter of all the people in America are Blue Shield members.

Blue Shield is big because medicine has a big job to do, and the people of America evidently like the way we're trying to do it. Blue Shield is big business—but it can't go anywhere without our help and guidance.

Opportunity

House for Sale

Corner house. Three bedrooms, 2½ baths, den, fully finished double garage. Newly decorated. Immediate occupancy. South location. Close to churches and schools. FHA low down payment. Call EMerson 3-2445.

Attractive Cape Cod house just off Johnson Drive, Mission, Ks. Ideal for small clinic. Ample parking facilities. Owner will remodel to suit. Call JEfferson 1-5667.

Equipment for Sale

Edison voicewriter dictaphone, 1956-57 model. In good condition. For information call FInley 2-7100.

Office Space Available

Available July 15, 1959. Over 1400 sq. ft. of space for one or two doctors consisting of: Private Office for Doctor, Reception Room, two Treatment Rooms, Large X-Ray Room, Large Operation Room, Recovery Room, EKG and BMR Room, Laboratory, One Private Bath and One Public Rest Room. Air conditioned. Location in Raytown area 100%. Telephone Mr. Roland evenings, FLeming 3-3793; daytime, FLeming 6-2445.

Little Known Medical History — the delightful series of articles by **Charles C. Dennie**—will not appear during the summer months. However, Dr. Dennie has promised, and "crossed his heart", that publication will be resumed in the first issue of September.

Leo H. Pollock

First Publication: Harry L. Jones, 816 Lathrop Bldg.; L. H. Wallendorf, 2209 East 37th Street. — The Executive Council will meet at 7:15 Tuesday evening, in the office of Wm. Frick, 1010 Rialto Bldg. Members of the Society having anything to bring before the Council are welcome at our meetings.

Editorial. At the Council Meeting of February 11, 1919, the chairman was instructed to appoint a committee which should report in writing recommendation on Editing and Managing the Bulletin and otherwise conducting the business interest of the Society. The committee submitted to the Council, February 25, 1919, the report as follows:

Hugh Miller, Secretary,
The Jackson County Medical Society

Sir: In pursuance to the request of the Society Council, the committee appointed to make recommendations for an assistant to the secretary, beg leave to submit the following:

In view of the present condition of the Society, its depletion of members due to the war, and many new and important problems arising in consequence of demobilization, the fact that the position of secretary entails too much time for any one medical man in active practice, we, the committee, favor and recommend the selection of an active assistant to the secretary, one not a doctor, who can in addition be managing editor of the Bulletin, and transact such work and detailed business as such offices of a large organization demand.

In view of the efficient services of Mrs. Rosa Hibbard as Librarian of the Kansas City Medical Library Club, and her very close connection with the Jackson County Medical Society and with things medical in Kansas City, and her probable availability, we recommend that she be named as assistant to the Secretary and Editor (managing) of the Bulletin for a period, as decided upon by the Council and at a salary of seventy-five ($75.00) dollars a month. We further recommend that due to the great need of a mouth-piece for the Society, that the Bulletin be continued, that its scope be enlarged in scientific matter, editorials, medical want ads, and general medical advertising.

We further recommend that there be named from the Society, a Committee on Publication to advise and assist in the editorial policy of the Bulletin. The Jackson County Medical Society is in need of an up-to-date business policy and business management. We believe if the above recommendations are favorably acted upon, that the welfare of the society will be materially advanced.

Respectfully submitted,
Geo. C. Mosher,
J. M. Frankenberger,
Robt. McE. Schauffler,
Scott P. Child, Chairman.

February 18, 1919

This report was adopted. The Society was instructed to negotiate with

KENACORT

SQUIBB TRIAMCINOLONE

for patients starting on corticoids

Kenacort safely starts your patients off right — with all the benefits of systemic corticosteroid therapy and few side effects to worry about. Increased corticoid activity is provided on a low dosage schedule[1-3] without edema,[1-4] psychic stimulation,[1-3] or adverse effect on blood pressure.[1-3,5] A low sodium diet is not necessary.[4,5] Gastrointestinal disturbances are negligible[2,4,5] with less chance of peptic ulcer.[4] This makes Kenacort particularly valuable in treating your "problem patients" — such as the obese or hypertensive and the emotionally disturbed.

Supplied:
Scored tablets of 1 mg.
Bottles of 50
Scored tablets of 2 mg.
Bottles of 50
Scored tablets of 4 mg.
Bottles of 30 and 100

for arthritic patients requiring corticoids

Kenacort, particularly in the treatment of your arthritic patients, has proved effective where other steroids have failed. It provides prompt, safe relief of pain, stiffness and swelling by suppressing the rheumatic process[1,5] — and may even forestall crippling deformities if started soon enough. Because of its low dosage[1-3] and relative freedom from untoward reactions,[1-5] Kenacort provides corticosteroid benefits to many patients who until now have been difficult to control. It is particularly valuable for arthritic patients with hypertension, cardiac disease, obesity and those prone to psychic disturbances.

Golf News

The last two meetings of the Jackson County Medical Dental Golf Society have been at Stayton Meadows Golf Course. The course has been fun to play and in good shape. The turnout has been about the same as last year, which means we want more players. The following have won golf balls in the first two outings: Bill Connely, D.D.S., 71, K. C., Mo.; Mickey Rowe, D.D.S., 74, K. C., Mo.; J. D. Smith, M.D., Clinton, Mo., and Bill Hickerson, M.D., K. C., Mo.

The next tournament will be at Indian Creek Golf Course, 8221 West 103rd, at 1:00 p.m. This is really a tricky course with a lot of rolling greens and a couple of lake shots. So bring your floating golf balls along!

We need some more low shooting M.D.'s as the way things look now, the dentists are the better golfers. Come on out and challenge this last statement.

William F. Connely, D.D.S.
President, Jackson County
Medical Dental Golf Society

Forty Years Ago

(Continued from Page 1028)

the proper authorities of the Medical Library Club accordingly. On February 28, 1919, the Secretary met with the directors of the Medical Library Club and effected the arrangements whereby Mrs. Rosa Hibbard, Librarian, becomes assistant to the Secretary of Jackson County Medical Society as outlined in the above report. This is as it should be. All medical interests for this community should be located at one place. There anyone should be able to find information of every character pertaining to medicine — such as the Secretary under former arrangements could not possibly furnish. Until now it has been necessary for the Society to impose upon the Librarian often to secure data. This information has always been freely given. It is remarkable the amount and character of information sought of the Secretary. Much of it could only be known by years of close touch with medical society affairs. It is expected by this arrangement also to develop the Bulletin, making it worth while. No busy physician, acting as Secretary, can possibly devote the time to it or the society's affairs to secure efficiency. This is a big step in the right direction. Library hours, 9:00 a.m. to 5:00 p.m.

Meeting of the Society. The meeting was called to order at 8:30 p.m. by the President, F. T. Van Eman. The minutes of the meeting of April 25th, were read and approved. Owing to the small attendance, on account of the storm, the program was postponed and G. Wilse Robinson gave an informal talk on the Neurological Experiences in Unit 28. Adjournment. Hugh Miller, Secretary.

Miss Mary Kay Stack, daughter of Mr. and Mrs. William J. Stack, and **Joseph Michael Masucci** were married June 6 at Christ the King Catholic Church.

Charles C. Dennie gave a talk before the Academy of Pharmacy meeting, May 25, on the history of drugs in medicine.

In the Treatment of Rheumatic Disorders Greater stability of maintenance dosage minimizes risks of hormonal imbalance

In Sterazolidin, the anti-inflammatory actions of prednisone and Butazolidin* are combined to permit lower effective dosage of each. Clinical experience has indicated that patients can be well maintained on this combination over prolonged periods with relatively low, stable dosage levels of each component, thus minimizing the problems arising from excessively high doses of corticosteroids. Other side effects have also been gratifyingly few. Antacid and spasmolytic components are contained in Sterazolidin capsules for the benefit of patients with gastric sensitivity.

Sterazolidin®: Each capsule contains prednisone 1.25 mg.; phenylbutazone 50 mg.; dried aluminum hydroxide gel 100 mg.; magnesium trisilicate 150 mg.; homatropine methylbromide 1.25 mg.

Detailed information available on request.

Doctors, too, like "Premarin"®

THE doctor's room in the hospital is used for a variety of reasons. Most any morning, you will find the internist talking with the surgeon, the resident discussing a case with the gynecologist, or the pediatrician in for a cigarette. It's sort of a club, this room, and it's a good place to get the low-down on "Premarin" therapy.

If you listen, you'll learn not only that doctors like "Premarin," but *why* they like it.

The reasons are fairly simple. Doctors like "Premarin," in the first place, because it really relieves the symptoms of the menopause. It doesn't just mask them — it replaces what the patient lacks — natural estrogen. Furthermore, if the patient is suffering from headache, insomnia, and arthritic-like symptoms due to estrogen deficiency, "Premarin" takes care of that, too.

"Premarin," conjugated estrogens (equine), is available as tablets and liquid, and also in combination with meprobamate or methyltestosterone.
